

To FCC: Concerning Verizon's petition it seems to me that being a part of the old baby bells they want to dictate to all consumers without what's best for us. I will be needing a new cell phone soon and would prefer to keep my original number that I have had for 5 years than have to change, then calling all of my freinds,family,and giving out a new number. Its as dumb as overlapping area codes when a few years ago when changing we could have gave Phila,Bucks,Delaware,Montgomery and surrounding counties there own area codes and kepted extras for expansion. So, please try to do whats best for us the customer. Thanks, Rob Gibson
